

EVENTITEMS

2016

From entrance laces, lanyards and earplugs to rainponchos and badge holder supplies

Our accessories will help your event to stand out from the crowd. No matter which target group you try to reach - products which make sense and fulfill a function are always accepted positively and will benefit the image of your event. Ideally our products will have a positive impact on your event.

Therefore many well-known german and european events are our customers for years. From movie awards to huge music events but also small local events or company parties. Thanks to our own production and high stock availability, we have very short delivery times.

Every event's objective is to stand out from other events and to offer every single guest something special - consistently from the admission to the encore. Doing this we are a reliable partner and supporter at your side.

Unlike impersonal mass productions our articles are specifically tailored to your individual requirements. By designing our products not for but together with you we attempt to meet your expectations. We guarantee a full service around the product - from the graphical service in advance to the finished product and its delivery.

Whether you have already found the right product or if you have a whole new challenge for us, we would like to assist you at your next event.

We are looking forward to your inquiry!

EARPLUGS

In case of high volume

Hearing damage by noise is tricky, because hearing loss influenced by noise usually won't be recognized immediately.

Earplugs are an indispensable part of the marketing portfolio. Specific, enduring advertising that your customers will keep in mind becomes more and more important. There is an increasing trend away from giveaways to useful articles that can be used and eventually be appreciated.

Our earplugs fulfill this purpose in several ways. They can be used purposefully by our numerous types of packaging and provide protection.

And when it comes to protecting your hearing, we make no compromises. We only use high-quality earplugs of the brands Moldex and SaveRave.

Print	1c screen print from 10,000 pieces possible (prices on request)

A close-up, vertical photograph of a woman with long, straight blonde hair. She is wearing a black, sleeveless top. Her right arm is visible, adorned with several colorful festival wristbands. The wristbands include text such as 'POOLBAR // FEST', 'ROCK IN VIENNA 4-6 JUNI 2015', and 'CITIZEN'. The background is a blurred crowd of people at an outdoor festival under a clear blue sky. A dark blue vertical bar on the right side of the image contains the text 'ENTRANCE LACES' in white, bold, sans-serif capital letters.

ENTRANCE LACES

Efficient admission controll

Our entrance laces are used wherever people need to be identified quickly and where various access areas must be checked. These laces are optionally made of woven fabric, plastic, silicone or Tyvek paper.

With your artwork or your sponsor's logo these wristbands are a special advertising medium being designed according to your creative ideas.

While the plastic and Tyvek laces are closed in themselves, you're able to choose the closure system of the woven fabric entrance laces. We offer both a gripper system as well as a NoTool system developed by us.

Gripper closure

The aluminium seal is closed by using a special gripper. For this purpose we offer table and unmounted gripper tools for rent or for sale. Order more than 5,000 entrance laces for your event and you'll be able to rent our grippers for free (only the shipping costs will be charged).

NoTool closure

With the NoTool closure developed by us the lace is simply secured by pulling the yet threaded plastic seal towards the wrist. The barbs on the inside prevent from reopening the lace and a transfer to third parties is virtually impossible.

WOVEN ENTRANCE LACE

Entrance lace with your artwork **woven**, deliverable with different closure versions

Minimum quantity	500 pieces
Delivery time	3 - 4 weeks from printing approval (standard woven) 4 weeks from printing approval (high quality woven) express delivery on request

LANYARDS

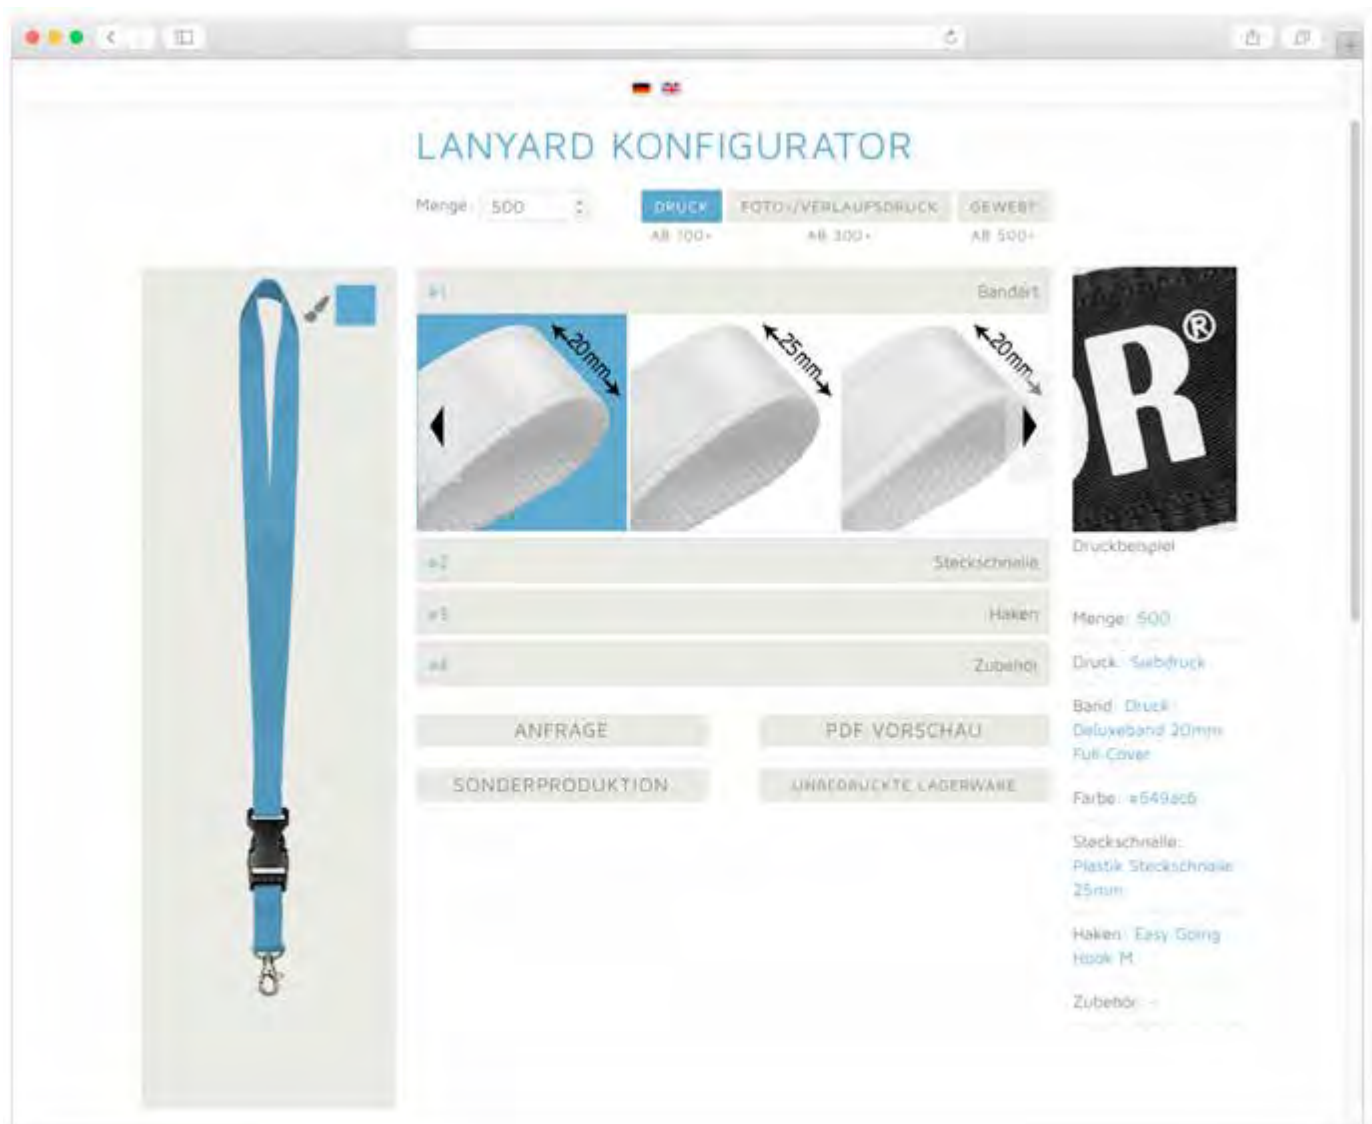

Hang Loose

Thanks to its versatility the lanyard enjoys great popularity for some time. Your target group is not only going to use this product during an event but also afterwards. This way your message will be spread long-lasting and visible for everybody.

When it comes to the product's set up, there are no boundaries to your creativity. Whether you want the lace to be wide or narrow, with an buckle attached or not - we realise your lace according to your individual wishes.

On the following pages you will get an overview of the most common models.

The lanyard's main purpose is the attachment of identification cards, access permissions, VIP or backstage passes. As a logical supplement, we offer you suitable badge holder supplies.

SCREEN PRINTING

Screen printed lanyards with or without buckle are suitable for simple and concise designs with high edge definition such as plain text or logo representation.

Minimum quantity	100 pieces
Delivery time	3 - 4 weeks from printing approval
Lace material	polyester - structure lace
Lace widths	10mm / 15mm / 20mm / 25mm
Print	1 to 6c screen printing (one or both sides) <i>optional:</i> from 500 pieces on, 4c offset printing on film colour gradients possible

DYE SUBLIMATION PRINTING

Dye sublimation printing on lanyards with or without buckle displays the complexity of detailed photo artworks, colour gradients and convinces through its high colour brilliance.

Minimum quantity	300 pieces
Delivery time	3 - 4 weeks from printing approval
Lace material	fine premium polyester lace <i>optional:</i> thicker material structure lace or recycled plastic
Lace widths	10mm / 15mm / 20mm / 25mm
Print	4c dye sublimation printing (one or both sides) colour gradients and all over print possible

WOVEN

For woven lanyards with or without buckle the artwork is woven directly into the lace. This durable finishing is perfect for indefinite artworks with a low level of detail.

Minimum quantity	500 pieces
Delivery time	4 weeks from printing approval
Lace material	polyester
Lace widths	15 mm / 20 mm / 25 mm
Processing	1c woven only simple artworks possible, negative illustration on the back

DELUXE VERSIONS

For the deluxe version of lanyards with or without buckle a very fine woven polyester strap with your artwork is finished and then applied onto a bottom lace.
