MyKit sizes - labels - artwork - template tools

Personalizing your My Kit product has never been easier.

With our label tool you can create your own label, adding logo / artwork both front and back.

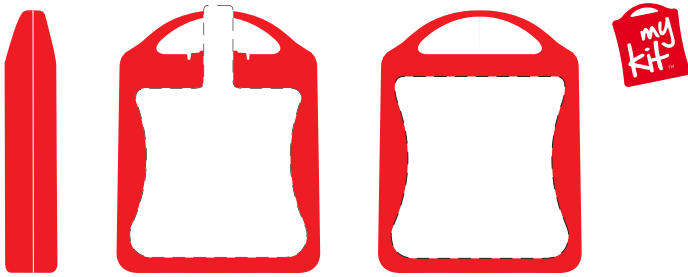

We have made a template for each box size with exact printing area measures, on which you can create your own artwork for your customers. Once we have received your fabulous design one from our graphic team will check and adjust it and send you the proof by email.

MyKit box colour and content choices

All MyKit boxes can be ordered with our in-house label design or you can create your own and we will gladly assist you with this when you've sent us the layout. With our in-house production we are even able to customize the colour of your box, read more about it here.
