

Promotional bottles

Catalogue 2022

Your partner in promotional bottles

You may already have used our bottle. It wouldn't be surprising, as we have been a branch specialist in the production and printing of drinking bottles for more than 25 years. A pure Dutch product.

Our customers are increasingly aware of a healthy lifestyle and often ask for environmentally friendly promotional items that are produced in an ethically responsible and sustainable way. For the development of our products we are constantly looking for new raw materials that are greener, cleaner and as environmentally friendly as possible. To do this, we continuously test, measure, manage and report our processes in our factory with Sedex certification and by our ISO-certified printer.

This is how we try to make a **positive contribution to the environment**

About us

Sport Bottles

We care for your hydration

Ideal product to use as a promotional eye-catcher

Encouraging associates to lead a healthy lifestyle is often part of a company's corporate strategy. Offering them a printed Tacx bottle will definitely make a difference. You are essentially wishing your team "good health"..... and we all know a healthy team is a more motivated team. Add to this that the bottle with its very high-quality, full-colour printing, will also vividly stand out and companies won't hesitate to choose the Tacx bottle as a promotional item.

Iconic bottle with powerful design

3 screw cap options

Shiva original, also available in 100% biodegradable material and 100% biobased made of sugarcane

Large area for full colour printing

Eco Bottles

Biobased made from sugarcane
or biodegradable

Doing our bit for the environment

To do our bit for the environment our bottles are made of high quality raw basic materials. This makes the bottles last for many years and contributes to the reduction of “single-use plastics”.

In the unlikely event you want something else, our bottles can be 100% recycled.

In addition you can contribute even more by choosing one of our “nature friendly” eco materials like biobased polyethylene made from sugarcane or biodegradable polyethylene.

Shiva O₂

500 & 750ml

Original, screw cap

100% biobased made from sugarcane

This bottle is made of 100% biobased material from sugarcane. After processing the sugarcane you have sugar molasses and residual material. From the molasses we make sugar products and the residual material is processed into ethanol products such as polyethylene. This way of making ethanol products is much cleaner than the conventional method with petroleum. In short, sugarcane produces a perfect product that is 100% recyclable, and we use it to make bottles.

Shiva Bio

500 & 750ml

Original, screw cap

100% biodegradable

The bottle made of biodegradable polyethylene decomposes in the landfill. This material is double flexible. On one hand because it is simply made of high quality polyethylene, so you can dispose of this bottle in the plastics bin to be 100% recycled. On the other hand, the bottle is biodegradable.

Fuse Bio

450ml

75% biodegradable

Cap and fruit fusion stick are not bio

Indicated PMS references do not reflect an exact colour match.

Lifestyle Bottles

Elegante bottle with fruit fusion option

The perfect way to add flavour and vitamins to your water

Drinking plenty of water is necessary but not always very exciting... so pimp your water by giving it a bit of flavour. The Tacx Fuse bottle can help you do that.

The Fuse bottle is an elegant lifestyle bottle with a fruit fusion stick that you can use to pierce fruit or herbs onto in order to add flavour and vitamins to your water.

Bottle cages

Deva

Bottle cage featuring a unique cylindrical shape that ensures perfect clamping; has proven its worth many times over during cycling classics over cobblestones.

Various colour options

Ciro

Lightweight bottle cage (just 29 g) with slim shape and tight clamping. The glass fiber core makes it durable and structurally reliable.

Various colour options

Radar

This side load bottle cage is designed to fit small bike frames. Constructed from glass fiber compound for increased clamping force.

Only in black

StarLight bottle crate

Suitable for transporting up to 8 Shiva bottles of 500ml or 750ml.

Only available in black. Pantone match available from 500 pcs.

Choice of Champions

To support the cycling sport, we are technical partner of many WorldTour teams, Pro-continental teams, Continental teams, Women teams, triathletes, ice-skaters, cyclocross and MTB teams. To make sure our products meet your expectations, we develop them in cooperation with professional riders.

Tech info

File specifications

- Adobe Illustrator 8.0 or higher (eps or vector ai file)
- Adobe Photoshop 5.0 or higher (or Adobe in-Design)

Fonts

- Mac user: please put the letter type in outline and send us the Fonts
- PC user: always change letters into outline

Print area

- Bidon 450ml: 195 x 140 mm
- Bidon 500ml: 235,5 x 100 mm
- Bidon 750ml: 235,5 x 100 mm & 235,5 x 29 mm (upper print area)

Distance between upper and lower part of imprint of the 750ml bottle is 95 mm (heart to heart print).

Top print area 750ml bottles

When printing on the upper part of the 750ml bottle, the top print is considered additional printing colors. So, 2 colors above and 2 below means a total of 4 printing colors.

Full colour process print: CMYK

It could be, that part of the design has to be made up in CMYK and an additional spot colour. For example, text with a specific pantone colour. Therefore, to ensure your calculations are correct, please always send us the artwork to check the number of print colours required.

Silk screen prints

For each print colour we make an individual screen.

We can print up to 12 colours. Our state of the art printing machine prints 6 colours in one production run.

Printing full colour

When printing a multiple colour design, where the colours meet a 0,5 mm tolerance in closure must be accepted. When printing full colour process CMYK, the end result is mat, pixelated and can deviate from the visual proof. Our raster size is 34 dpi.

Printing on coloured bottles

To print a pantone colour onto a coloured bottle, it's necessary to print a white underlay first. No white underlay is required for grey tints, gold, silver and white. In some cases an outline is visible and has to be accepted. The white underlay is calculated as one extra print colour and one extra screen. If white is already part of the design, there is no extra white underlay required. If in doubt, please contact us for information.

Dark bottles + Top of Shanti cap

Dark bottles and the Shanti caps are unfortunately very sensitive to scratches and scuff marks. This must be accepted.
